ZIRKULAR BAT Workshop

Circular Economy at the Batteries Industry: challenges and opportunities

🕒 June 13, 2024 - Naturklima

9:00

Registration

9:30

Institutional opening
Provincial Council of Gipuzkoa
José Ignacio Asensio

9:40

Introduction to the
Workshop
CIDETEC Energy Storage (ES)
Oscar Miguel

9:55

Battery End of Life, Second
Life and Recycling - Exploring
Challenges, Drivers, Use Cases,
and Market Perspectives
in Battery Second-Life
Management
P3 (D)
Francesco Cigarini

10:20

The EU Battery Passport -
Overview of requirements and
use cases
Systemiq (D)
Anna Braunfels

10:45

Networking coffee

11:15

Reverse logistics and handling
of used EV batteries
Bax & Company (ES)
Marcos Ierides

11:40

Building Battery Systems
with Second Life: Technical
Considerations and Best
Practices
Cling Systems (SE)
Axel Wimby

12:05

Battery remanufacturing for
circular economy: experience
from the field
Masmec (It)
Leonardo Chieco /
Stefano De Benedictis

12:30

Battery second life applications
Volvo Energy (SE)
Belén Neira

12:55

Networking lunch

14:00

LIFE ReLiGHT - Reuse and
recycling Li-ion batteries for
green hybrid technologies.
Challenges and lessons learned
Capital Energy (ES)
Rocío Palomino Marín

14:25

Innovation and Challenges in
Battery Recycling for a Circular
Economy Approach
Orano (Fr)
Justo García

14:50

Ecobat Solutions - Fully
Integrated Value Chain
Ecobat (D)
Christian Stein

15:15

R+D through the circular value
chain
TUBS IPAT/ FHG IST (D)
Sabrina Zellmer

15:40

Round table: Main challenges
and opportunities in battery
circularity
**Cidetec // Cling, Volvo, Capital,
Masmec, Orano, Ecobat**
Elixabete Ayerbe (Chair) + Guest
industry speakers

16:30

Closing

Registration required <https://naturklima.eus/workshop.htm>
